The Sidewalk Bids

Elsewhere will be found a re-advertisement for construction of sidewalks on blocks 31, 35, 37, 38 and 41. Bids for this work were made under the former advertisement, and opened February 4th as follows: Joe Conley, \$1,248; Anadarko Curb & Walk Co., by A. M. Thompson, supt. \$1,156.55; T. L. Evans, 15c per square foot for sidewalk surface; Connolly Construction Co., sidewalks at 15 1/2 c per square foot, curb 40 1/2 c per lineal and grading at 50c per cubic yard; and R. A. Sullivan of Lawton, sidewalks at 15c per square foot, curb at 45c per square foot, and grading at 30c per cubic yard.

Owing to the fact that bids were made in the lump sum as well as by the unit of surface, the council found it difficult to make a satisfactory comparison. For instance, when the bid of the Anadarko curb and walk company was dissected, it was found that Mr. Thomson had failed to cover completely all the space to be bid upon.

Under the circumstances and considering that if there were any technicalities whereby the property owners disposed to refuse payment might successfully fight the city in the courts, the council rejected these bids, and called for new bids. If the property owners could lawfully evade payment the sidewalk contractor would have recourse by suit against the council.

The new advertisement requires bids to be submitted per unit of surface to avoid any confusion. The city should also have the city engineer prepare a statement showing the amount of excavating and filling to be done in cubic yards, so that the actual figures will be before the council as well as the bidders. For instance the bid of the Connolly construction company at 50c per yard for grading would make their bids appear higher when if there were little or no grading to be done their bid would actually be less than it appeared. The Mayor and the council will save themselves possible annoyance by taking some such step as this suggested.
